

MEDIC MALAWI UPDATE

January 2015 - Letters from Mtunthama

Dear friends of Medic Malawi

Not my words for this New Year, but some thoughts from our partners in Malawi, the people whose energy, resourcefulness, and skill I rely upon every day of the year.

Stephen

Aubrey Wande
Administrator

For St Andrew's Hospital, 2014 was like a journey with lots of adventures BUT with the company of Medic Malawi and all well-wishers who have tirelessly supported the hospital's course morally and financially respectively, it was an exciting one.

There is a campaign by government and other stake holders against women giving birth at Traditional Birth Attendants which has made many expectant women go to the hospital. Most of them are flocking to St Andrew's. Now there are more births, hence the need for additional delivery beds and increasing the number of some assets like beds especially for our women surgical ward and equipment like oxygen concentrators in order to meet the demand.

Peter Minjale
Senior Clinician

Let me take an opportunity to thank Medic Malawi and all its supporters for the tireless support which you had been giving us at the hospital and the rest of Mtunthama village in the just ended year 2014.

May the Almighty God give you and all Medic Malawi Supporters sound health so that you continue the good work you are doing here in Malawi. May you share this message to all the involved supporters of Medic Malawi.

I wish all of you happy and prosperous new year. God bless you.

BREAKFAST FOR MALAWI

Our annual fundraiser depends on your individual support. Can you organise a Breakfast, with proceeds to Malawi? Full instructions on our information pack but basically – a) invite some friends, b) give them some eggs and bacon, and c) ask them to empty their wallets for The Cause. This can be varied for any meal or any group you choose.

Michael Masudi
Headmaster

Dear Stephen,

In the name of our dear Lord Jesus Christ I greet you all. I humbly write you just to thank you for the job well done in 2014.

The year 2014 was a very successful at All Saints Secondary School for a number of reasons.

Firstly, through your timely support, Genesis Girls Hostel and administration Block were completed. There were lots of gifts that enabled the school to operate smoothly. We are very very grateful for all the energies and efforts you are rendering to our community through the mighty Medic Malawi - Bravo Medic Malawi for the wonderful job you are doing which is assisting thousands of people in our community!

Further, had it been without Medic Malawi, over one hundred needy students, mostly orphans would have been school drop outs. However, through Medic Malawi well wishers, these students are in school now through sponsorship on school fees that you, our good friends, indeed are offering to the students.
